The Importance of Allocating to Hedge Funds

Diversification
Strategies independent of stocks and bonds

Advanced Tools
Leverage and derivatives typically unavailable

Risk Management
Strategic hedging of specific exposures

Consistent Returns
Manager skill drives performance

Institutional Service Providers Ensure Your Capital Is Safeguarded

Crystal leverages many of the industry's top institutional service providers to ensure the safety of client assets.

CUSTODIAN
The investor wires funds directly to BNY Mellon and all investments into the funds are registered with the custodian.

ADMINISTRATOR
SS&C Technologies reviews documentation, monitors and initiates the movement of funds, confirms receipt of subscriptions, and performs independent monthly net asset value (NAV) calculations.

AUDITOR
Ernst and Young performs an annual audit on each segregated portfolio.

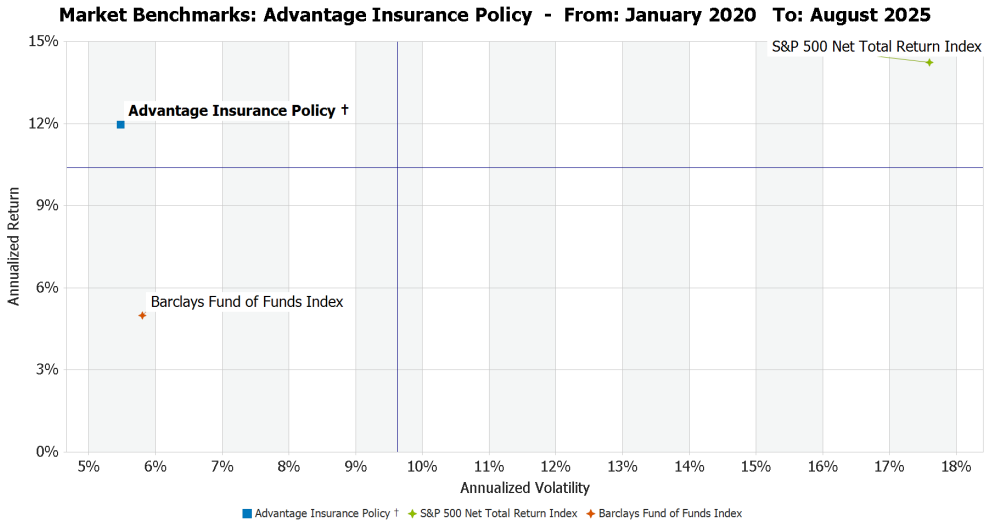
All analytics are based on a 100% allocation to hedge funds unless otherwise noted. Portfolio performance is net of all fees and expenses. Expenses include, but are not limited to, approximately 35 basis points for third party administrative expenses. Past performance is not indicative of future results. Light blue area indicates Hypothetical Returns. Please see important disclaimers at the end of this document.

Allocations Table: Advantage Insurance Policy
From: January 2020 To: August 2025

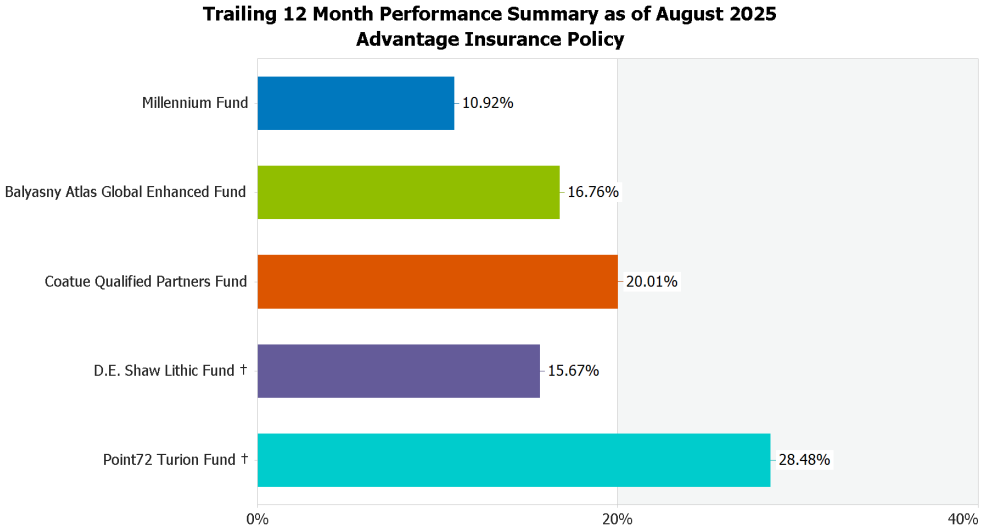
Fund Exposure	Fundamental Strategy	Portfolio Allocation	Annualized Return	Annualized Volatility
Millennium Fund	Multi-Strategy	20.00 %	14.06 %	3.69 %
Balyasny Atlas Global Enhanced Fund	Multi-Strategy	20.00 %	12.98 %	4.98 %
Coatue Qualified Partners Fund	Long-Short Equity	20.00 %	15.04 %	13.55 %
D.E. Shaw Lithic Fund †	Equity Market Neutral	20.00 %	9.39 %	6.95 %
Point72 Turion Fund †	Long-Short Equity	20.00 %	22.49 %	14.01 %

Replicating this portfolio directly with the managers would require at least $60 million.

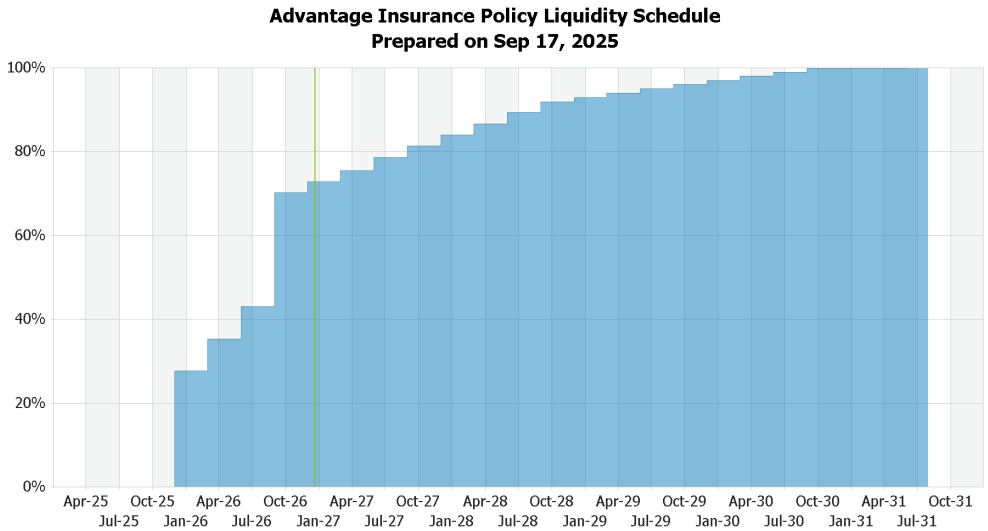
The Market Benchmarks chart compares various investments and shows their annualized rate of return net of all fees, and their annualized volatility. Investors typically prefer investments in the NorthWest Quadrant, as these represent higher annualized returns and lower annualized volatility.



This graph shows the net trailing 12-month performance of the fund exposures in a portfolio for continuing investors.



The liquidity schedule shows the optimal available liquidity over time. The liquidity is determined by the aggregate liquidity of the underlying exposures. Liquidity is dynamic in nature and therefore this schedule can change and be materially affected by changes in allocations, the timing of each member's subscription, and other factors.



FUND EXPOSURE DETAILS

Attached is a summary of the third-party fund investment terms for each of the Exposures targeted by your Customized Portfolio. None of the third-party fund investment terms shall supersede the terms and conditions set forth in the Fund's Offering Memorandum, LLC Agreement, Articles of Association, and/or the Subscription Agreement (collectively, as applicable, the "Fund Documents").The Advisor understands the terms set forth in the Fund Documents, and it has carefully considered all terms on behalf of the Investor.

BALYASNY ATLAS GLOBAL ENHANCED FUND

The Balyasny Atlas Global Enhanced Fund is a multi-manager, multi-strategy fund that primarily pursues opportunities within the fundamental long/short equity, global macro, and event & credit strategies. The Fund is managed by many distinct portfolio teams, each running separate, specialized portfolios focused on certain sectors or sub-sectors of the investment market. Investment decisions are made by the individual portfolio managers, subject to previously agreed-upon risk constraints. The Fund can be levered up to twice the amount of the Balyasny Atlas Global Fund.

IMPORTANT DISCLOSURES: This document is for informational purposes only and is not an offer to sell nor a solicitation of an offer to invest in any entity or other investment vehicle managed by Crystal Capital Partners, LLC, or any manager or fund described within this document. All returns are before Crystal's and other fees and expenses that may be charged, including your Advisory fees. Fund exposures may not be available at all times due to capacity or for other reasons. Light blue area indicates Hypothetical Performance. Before you decide to invest, read the Fund's Offering Memorandum and related information and risk disclosures, which are available on our website or upon request. Interests in the Fund have not been registered with the SEC under the Securities Act, or under the securities laws of any other jurisdiction, and the Funds have not been registered as an investment company under the Investment Company Act of 1940, as amended, and are being offered and sold in reliance on exemptions from the registration requirements of such laws.

COATUE QUALIFIED PARTNERS FUND

The Coatue Fund is a global equity long/short fund focused primarily on the Technology, Media & Telecom (TMT) sector with a secondary focus on the Consumer sector. The investment approach is based on fundamental research and has an overall long-term investment horizon. The Manager believes the TMT and Consumer sectors represent large markets underpinned by strong long-term growth drivers. The Fund looks to capitalize on technological and consumer trends on the long side, while shorting firms the Manager believes are being disrupted by these emerging trends.

D.E. SHAW LITHIC FUND

The investment objective of the D.E. Shaw Lithic Fund is to achieve positive returns from capital appreciation (whether short-term or long-term) and income generation. In furtherance of this objective, the Fund is expected to primarily pursue an active, multi-asset class investment strategy that generally seeks exposure to (a) global single stocks, (b) global macro assets, (c) opportunistic trades sourced primarily from the D.E. Shaw group's alternative investment strategies, and (d) positions intended to mitigate the Fund's exposure to sharp drawdowns in U.S. equity markets during periods of high volatility.

POINT72 TURION FUND

The Point72 Turion Strategy is a thematic long-short equities fund launching in 2024 to capture the growing Artificial Intelligence opportunity set. The team is led by Steven Cohen, 30+ years of investing experience, and Eric Sanchez, who has significant experience investing in hardware-focused companies. The portfolio will be comprised of 30-50 stocks, expecting 20-30 longs, and 10-20 shorts, coupled with select private investments (Series A-C) capped at 5% or less of AUM. Point72 believes that the firm offers an innovative combination of the resources of an established, multi-strategy firm and a durable, sizable value creation opportunity.

IMPORTANT DISCLOSURES: This document is for informational purposes only and is not an offer to sell nor a solicitation of an offer to invest in any entity or other investment vehicle managed by Crystal Capital Partners, LLC, or any manager or fund described within this document. All returns are before Crystal's and other fees and expenses that may be charged, including your Advisory fees. Fund exposures may not be available at all times due to capacity or for other reasons. Light blue area indicates Hypothetical Performance. Before you decide to invest, read the Fund's Offering Memorandum and related information and risk disclosures, which are available on our website or upon request. Interests in the Fund have not been registered with the SEC under the Securities Act, or under the securities laws of any other jurisdiction, and the Funds have not been registered as an investment company under the Investment Company Act of 1940, as amended, and are being offered and sold in reliance on exemptions from the registration requirements of such laws.

Important Proposal Disclosures

Please also refer to the Terms of Use Agreement and all disclosures on this website, the Fund's Offering Memorandum, LLC Agreement, Articles of Association, and/or the Subscription Agreement (collectively, as applicable, the "Fund Documents"), including for all terms not defined herein.

User shall only make Confidential Information available to persons who satisfy the requirements of an "accredited investor" under the Securities Act of 1933, as amended, and Rule 501 of Regulation D adopted thereunder and/or a "qualified purchaser" as that term is defined under Section 2(a)(51) of the Investment Company Act of 1940, as amended. User specifically acknowledges that User and User's representatives may be held liable for damages including any civil penalties, fines or judgments resulting from providing access to Confidential Information to persons that are not accredited investors and/or qualified purchasers or are not otherwise entitled to receive the Confidential Information.

This website and reports therefrom are intended only for the use of the website's Users and may contain confidential information. You are hereby notified that any dissemination of the information on this website and any reports therefrom are strictly prohibited. If you receive any information from this website or any report therefrom in error, please notify us immediately and destroy such information or report. By accepting and retaining such information or report, you agree not to disseminate it in any form to any person and not to alter it in any way. All Confidential Information shall only be used for purposes of evaluating the investment opportunities of persons permitted hereunder. User may not modify, copy, distribute, broadcast, transmit, reproduce, publish, license, transfer, sell, mirror, frame, or otherwise use any Confidential Information for any other purpose. No Confidential Information shall be used in a manner that is not permitted by this Agreement or by applicable law or regulations.

FOR USERS IN THE UK ONLY: This document is only being made available to you by Crystal and the Funds on the basis that you are a UK Financial Conduct Authority authorised firm in accordance with article 19 of the Financial Services and Markets Act 2000 (Financial Promotion) Order 2005. This document must not be forwarded to or sent to any person other than representatives of FCA authorised firms. No other person in the United Kingdom should treat this communication as being directed at them. Please note that only investors who are Professional Clients for the purposes of the FCA's rules will be able to invest into the Funds which will be made available to the selected FCA authorised firms who we interact with. Potential investors who are Retail Clients for the purposes of the FCA's rules will not be able to invest.

The information contained in this document or website ("Document") does not constitute legal, tax, accounting, or regulatory advice, and persons considering an investment in any Fund should consult their own legal, tax and accounting advisors with respect to the application of any securities, tax or other laws and accounting and regulatory provisions of the United States or other jurisdictions.

Neither Crystal nor any of its directors, officers, managers, members, employees or affiliates are acting as your Portfolio Advisor in any capacity. Your Portfolio Advisor, as a discretionary investment advisor, is solely responsible for determining the suitability of all Funds for your portfolio.

This document or website is for informational purposes only and is not necessarily investment advice or an offer to sell or the solicitation of an offer to buy any interest in any entity or investment vehicle. Any offer to sell or solicitation to invest will only be made through an offering memorandum of one or more investments managed by Crystal in accordance with all applicable laws and regulations. This document or website should not be relied upon as professional and/or financial advice, nor does it constitute a comprehensive or complete statement of the matters discussed therein. No representation is being made that any investment will or is likely to achieve profits or losses similar to those shown or described. Performance will vary depending on many factors, including, but not limited to, investment strategies, taxes, market conditions, and applicable advisory and other fees and expenses related to investing, including fees imposed by Crystal and the Portfolio Advisor(s). Not all exposures to Funds may be available at all times due to capacity or for other reasons. Investments available on Crystal's platform carry certain risks as alternative investments are complex, speculative, and illiquid investment vehicles and are not suitable for all investors. Please see the applicable offering memorandum for more information.

Interests in the Funds have not been registered with the SEC under the Securities Act, or under the securities laws of any state of the United States or under the securities laws of any other jurisdiction, and the Funds have not been registered as an investment company under the Investment Company Act of 1940, as amended, and are being offered and sold in reliance on exemptions from the registration requirements of such laws. The interests in the Funds are speculative, illiquid, involve substantial risk, and are a suitable investment only for a limited portion of an investor's portfolio. Investors could lose all or substantially all of their investment in the Funds. Accordingly, a Portfolio Advisor, as discretionary investment adviser, must ensure that an investment in the Funds is suitable.

The Funds and/or Crystal use several sources of information to support the analysis in this website, including information provided by investment managers, third party databases, and other public and non-public sources. The Funds and/or Crystal make no warranty as to the accuracy, completeness or suitability of the information sourced from third-parties. Any past performance is not indicative of future results; such past performance may not be representative of how an investment in the referenced Indexed Fund(s) will perform in the future.

None of the directors, officers, managers, members, employees or advisors of Crystal or its affiliates or any other person makes any promise, guarantee, representation or warranty (express or implied) to any person as to the fairness, accuracy or completeness of this website or the information contained herein, or of any other information, materials or opinions, whether written or oral, that have been, or may be, prepared or furnished by any of those sources, including, without limitation, economic or financial projections, if any, or risk evaluations.

References to "fund exposure" or "exposure(s)" shall generally be considered a derivative instrument indexed to a third-party private equity or hedge fund (the "Indexed Fund") with the expectation of similar performance and liquidity. However, there is no guarantee that the exposure will perform similarly to its Indexed Fund as shown. It is possible that the actual performance of an exposure is substantially different than the performance of its Indexed Fund. Each exposure may or may not invest substantially all of its assets in securities directly or indirectly through one or more Indexed Funds. Information relating to any fund terms of an Indexed Fund contains only summary information about the underlying hedge or private equity fund and is qualified in its entirety by, and should be read in conjunction with, the more detailed information contained in the offering memorandums for each Fund managed by Crystal and other appropriate Fund Documents. Such information has been prepared to assist interested parties in making their own evaluation of the suitability of any fund exposure with respect to their portfolio and does not purport

to be complete or to contain all of the information that a prospective or current investor might consider important in connection with an investment in any Fund. In all cases, interested parties should conduct their own investigation and analysis of the Funds using the applicable offering memorandum, the data set forth in this website, and such other data as they may consider relevant to an investment decision. Crystal is not a direct fiduciary or investment adviser with respect to the Indexed Fund(s) referenced herein; these Indexed Fund(s) are not sponsored, managed or in any way controlled by Crystal. This website and the materials therein do not imply or suggest a joint venture between Crystal and the sponsor and/or manager of the Indexed Fund(s) referenced herein.

“Hypothetical Performance” means hypothetical performance, pro forma, simulated performance or similar results that were not actually achieved and have certain inherent limitations. Unlike the results shown in actual performance records, Hypothetical Performance results do not represent actual performance. Such results may be under-or over-compensated for the impact of certain market factors, including but not limited to leverage, lack of liquidity and the benefit of hindsight. No representation is being made that any account will or is likely to achieve actual performance similar to Hypothetical Performance. Hypothetical performance includes, but is not limited to: (i) performance derived from model portfolios; (ii) performance that is backtested by the application of a strategy to data from prior time periods when the strategy was not actually used during those time periods; and (iii) targeted or projected performance returns with respect to any portfolio or to the investment advisory services with regard to securities offered in the advertisement. Hypothetical Performance does not include: (A) an interactive analysis tool where a client or investor, or prospective client, or investor, uses the tool to produce simulations and statistical analyses that present the likelihood of various investment outcomes if certain investments are made or certain investment strategies or styles are undertaken, thereby serving as an additional resource to investors in the evaluation of the potential risks and returns of investment choices; provided that the investment adviser: (1) provides a description of the criteria and methodology used, including the investment analysis tool's limitations and key assumptions; (2) explains that the results can vary with each use and over time; (3) if applicable, describes the universe of investments considered in the analysis, explains how the tool determines which investments to select, discloses if the tool favors certain investments and, if so, explains the reason for the selectivity, and states that other investments not considered could have characteristics similar or superior to those being analyzed; and (4) discloses that the tool generates outcomes that are hypothetical in nature; or (B) predecessor performance that is displayed in compliance with paragraph (d)(7) of § 275.206(4)-1 of the Investment Companies Act.

There may be differences between the investments made by the Funds and/or a portfolio, and each of the benchmark indices referenced (together, the "benchmark indices"). The benchmark indices are referenced for informational purposes only and no suggestion is intended that any of the benchmark indices fully reflect the Funds and/or a portfolio. The benchmark indices generally represent a particular strategy or sector, whereas the Funds and/or portfolio may be comprised of many different strategies or sectors. Additionally, the Funds and/or portfolio may invest in securities that have a greater degree of risk and volatility, as well as less liquidity, than those securities contained in the benchmark indices. Moreover, the benchmark indices may not reflect the reinvestment of income or dividends and are not, unless otherwise noted, subject to any of the fees or expenses that the Funds and/or portfolio must pay. It should not be assumed that the Funds and/or portfolio will invest in any specific securities that comprise the benchmark indices, nor should it be understood to mean that there is a correlation between the Funds' and/or portfolio's returns and the benchmark indices' performance. The benchmark indices may be affected by "survivorship bias" because they do not include performance data for issuers that are removed therefrom because they no longer meet the relevant benchmark indices' criteria or do not include performance from failed hedge funds that no longer exist, which may cause the results of the benchmark indices to skew higher due to the fact that they are calculated using data for surviving hedge funds only. It is not possible to invest directly in a benchmark index.

Hypothetical Performance has certain inherent limitations. Results are presented net of all fees and expenses. The Fund Manager will receive a Management Fee of 1.50% from each investor, as further described in the Subscription Agreement. If applicable, your Portfolio Advisor will receive an additional Advisory Fee of 0.00%, as described in the Subscription Agreement. Expenses include, but are not limited to, approximately 35 basis points for third-party administrative expenses. All Fund returns do not account for other fees or expenses that may be charged by your Advisor or Placement Agent.

Exposure performance is shown net of the underlying Indexed Fund fees and expenses but does not reflect the deduction of Crystal’s management fees and other fees and expenses that may apply to a portfolio, including Advisory Fees. It is possible that the actual performance of an Exposure is substantially different than the performance of its Indexed Fund. Past performance is not indicative of future results

Portfolio performance is shown net of the underlying Fund fees and expenses, including Crystal’s management fees, Advisory fees, and other fees and expenses that may apply to a portfolio. Past performance is not indicative of future results.

Hedge Fund Liquidity: Exposure redemption notification terms include an additional 15 business days in order for Crystal and its independent service providers to execute redemption instructions. As it relates to hedge fund investments, liquidity schedules are available on Crystal's website and show the best available liquidity at the time the schedule is requested. Liquidity is dynamic in nature and may change daily with changes in allocations, the timing of each investor's subscription, the timing of the Portfolio Advisor re-balancing requests, and other factors. The liquidity schedule of a portfolio is for rebalancing purposes only. The liquidity schedule(s) of investors may be substantially different.

Private Equity Fund Liquidity: As it relates to private equity fund investments, investors generally have no right to redeem, transfer, pledge or otherwise encumber their interests. It is unlikely that a holder of interests will be able to liquidate its interests in the event of an unanticipated need for cash.

Fund Vintage Performance: Fund Vintage Performance is shown net of the underlying private equity manager’s fees but does not reflect the deduction of Crystal’s and other portfolio management fees and expenses that may apply. Past performance is not indicative of future results.
